## ***NEW CONSTRUCTION*** *THE CONSTRUCTION SITE IN YOUR HANDS*

The needs on construction sites are changing: management costs must be reduced, the vehicles productivity must be continuously improved. And Dieci meets its customers new requirements, evolving its own Product Offering with a new proposal of models that completes the Construction range.

More versatile vehicles - to perform different jobs - more **compact**, more **reliable**, **easy** and intuitive to use, while guaranteeing the maximum safety at all times. Maintenance is very easy thanks to **durable** components and materials that require replacement after several hundred hours of use. Modern vehicle, even in the lines, with the new Giugiaro Design cab enriched with materials derived from Truck and Automotive sectors that enhance its interiors. The **Zeus** family is composed of versatile and dynamic telehandlers, designed to handle important loads in confined spaces, both in the construction and industrial sectors, with the right balance between power and agility. With lifting heights from 7 to 13 m and load capacities from 3.5 to 4 tons, the Zeus telehandlers have been completely redesigned to reduce operating costs and emissions. Outriggers with proportional control, transverse leveling device and a wide range of equipment available allow to carry out various operations: with a telehandler, **you have the whole construction site in your hands.**

# VERSATILE AND DYNAMIC

## INTELLIGENT COMMANDS

- All boom movements are controlled by a **single joystick**, in a precise and proportional way and regardless of the load
- **Automatic electric parking brake**, even with the engine off: hill-start assist always available
- **Joystick with integrated FNR**, with capacitive sensor to automatically detect the operator's presence
- Vehicle information and diagnostic menu browsable in the 3.5" display
- Dashboard with clear instrument panel and **well-distributed controls**

INTEGRATED FNR

PARKING BRAKE

### ZEUS 40.7

- ↑ Height 7.2 m
- 📦 Capacity 4000 kg
- ⚡ Power 54,6 kW@2600 rpm
- 📊 Mass 8000 kg

### ZEUS 38.8

- ↑ Height 7.6 m
- 📦 Capacity 3800 kg
- ⚡ Power 54,6 kW@2600 rpm
- 📊 Mass 8300 kg

### ZEUS 35.11

- ↑ Height 10.6 m
- 📦 Capacity 3500 kg
- ⚡ Power 54,6 kW@2600 rpm
- 📊 Mass 8850 kg

### ZEUS 38.10

- ↑ Height 9.6 m
- 📦 Capacity 3800 kg
- ⚡ Power 54,6 kW@2600 rpm
- 📊 Mass 8550 kg

### ZEUS 40.13

- ↑ Height 12.5 m
- 📦 Capacity 4000 kg
- ⚡ Power 54,6 kW@2600 rpm
- 📊 Mass 9850 kg

# STRONG AND SAFE

## POWERFUL AND STABLE

- **Extremely versatile and dynamic** vehicles in all operating conditions, with boom retracted or extended
- **High efficiency Kubota engines:** low noise, low consumption and low emissions
- **Arm too high** function: forward movement speed limited automatically when the boom is raised
- **Increased lateral stability:** longer wheelbase and robust chassis
- **EN15000 anti-tipping system:** aggravating movements blocked in the event of overload and load level always in evidence
- **ROPS and FOPS Cab:** operator protection guaranteed thanks to the dimensional stability of the cab
- **Independent outriggers** with proportional controls, available for Zeus 35.11 and Zeus 40.13
- **Transverse leveling device\*:** to always work with the chassis in horizontal position, even on uneven ground
- Zeus telescopic handlers are automatically configured when the equipment is attached: this eliminates any possible human error and the **operator's safety is guaranteed at all times**

\*Optional

**INDEPENDENT OUTRIGGERS**

**TRANSVERSE LEVELING DEVICE**

## FLEXIBLE AND FUNCTIONAL

### WIDE RANGE OF EQUIPMENT

- The new Zeus vehicles have been designed to use the **various equipment** needed to carry out **all the work required by a construction site**: forks, loaders, lifting hooks, jibs with winches, grippers, material baskets, mixing buckets, concrete ladles, sweepers, salt spreader, snowplow blades
- **Automatic equipment recognition**: the vehicle configures itself automatically recognizing the equipment attached
- **Pre-arrangement for passenger basket**: the new CAN BUS keypad allows the operator to control the boom and the aerial platform directly from the basket, in total autonomy and full safety (complies with the EN 280 standard)

## PRACTICAL AND RELIABLE

### FACILITATED DRIVING AND MAINTENANCE

- **Four driving wheels** and four steering wheels
- **Three steering modes** which can be selected by the operator: concentric, front and crab
- Hydraulic oil change every **2000 hours**
- **Easy to reach filters** in the engine compartment
- Sturdy and durable boom assembly: **tested reliability** for years of multiple applications and uses
- **Standard battery isolation** switch, well protected and quickly accessible under the cab

# TECHNOLOGICAL EFFICIENCY

## DIECI HARDWARE AND SOFTWARE

- **Always smooth boom movement:** when the operating limits are reached, a speed limit is activated which makes the work experience smooth and jolt-free. This avoids loss of material from forks and bucket and allows more precise manoeuvres from inside the basket, dampened in all movement conditions
- **Hydrostatic transmission** with fully electronic control
- **New control software** developed by the Dieci R&D department: advanced boom, vehicle, engine, transmission and exhaust treatment control
- **Low consumption, high efficiency, optimized yield and maximum safety** in all the vehicle conditions of use
- **ECO function:** maximum speed already at 1900 rpm, automatically managed by the control unit according to the power required by the operator
- High-strength steel structures produced internally by Dieci: **top market performance**

**SMOOTH BOOM**

**NEW SOFTWARE**

**LOW CONSUMPTION**

# COMFORT AND CONTROL

## NEW GIUGIARO DESIGN

- **New Giugiaro Design cab:** fine interiors derived from the Truck and Automotive sectors
- **More space** for the operator's legs
- Adjustable steering column and armrest
- **Three seat suspension systems** to choose from: mechanical, pneumatic and low frequency pneumatic
- Soundproofing roof, dashboard and mat
- Large windows
- Integrated **LED work lights** for maximum visibility even at night: on the cab, boom and perimeter
- Rear-view mirrors that allow all-round visibility and optional **cameras**
- Direction of travel and boom controlled by the **new ergonomic joystick**

# DIECI SERVICE

## ASSISTANCE SERVICE ALWAYS AND EVERYWHERE

General headquarters in Emilia Romagna - over 135,000 square meters and about 400 people employed - and 3 branches in Germany, United Kingdom, France: Dieci is present in over 70 Countries with **an extensive network of over 400 dealers** and authorized service centers.

**Dieci Service**, our global technical assistance service, is developed on this basis: our customers are assisted directly by specialized technicians and every request is satisfied in a very short time. Dieci Service, **within a few hours, can provide interventions and spare parts all over the world.**

Visit [www.dieci.com](http://www.dieci.com) to find the dealer closest to you.
